RESOLUTION NO. 373-20(F): A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF WEST PALM BEACH, FLORIDA, AUTHORIZING THE APPROPRIATION OR TRANSFER OF CITY FUNDS IN FISCAL YEAR 2020/2021 IN ACCORDANCE WITH SECTION 4.03 OF THE CITY CHARTER OF THE CITY OF WEST PALM BEACH, FLORIDA, FOR THE PURPOSE OF AMENDING THE WATER AND SEWER GENERAL RESERVE FUND AND THE WATER AND SEWAGE SYSTEM REVENUE FUND BUDGETS TO PROVIDE APPROPRIATION OF FUNDS FOR WATER AND SEWER OPERATING CONTINGENCY WHICH WERE UTILIZED TO FUND DECLARATION OF EMERGENCY PROCUREMENTS FOR THE SANITARY SEWER COLLECTION AND TRANSMISSION SYSTEM; PROVIDING AN EFFECTIVE DATE; AND FOR OTHER PURPOSES.

Agenda Cover Memorandum No.: 23174

Staff Recommended Motion:

Approve Resolution No. 373-20(F).

Background:

The Public Utilities department has encountered several emergency situations since the beginning of the fiscal year, and as a result has utilized water and sewer operating contingency of approximately \$1.3 million to provide funding for costs incurred in response to the emergencies, and to add approximately \$246,000 to the sanitary collections repair and maintenance services operating budget for future needs during fiscal year 2021.

On October 13, 2020, there was a sanitary sewer main failure on the south side of the property located at 2400 Centrepark West Drive, which required replacement of damaged sewer pipe to fully restore the integrity of the sanitary system. Approximate cost: \$266,166.

Beginning mid-October 2020, as a result of the very challenging weather conditions that affected numerous South Florida communities, the sanitary sewer collection and transmission system received unusually high and sustained volumes of wastewater. The situation resulted in two (2) instances where the City's collection and transmission system overflowed sanitary wastewater outside of the system. In the interest of public health and safety, a number of external utility contractors assisted with providing pumper trucks and vacuum trucks to handle the unusually high volume of wastewater in the system. Approximate cost: \$553,955.

In addition to the October events, in early November 2020, there were additional unexpected weather impacts resulting from Tropical Storm Eta from November 8 through November 11, which again required contracting with external vendors to provide pumper and vacuum trucks to handle the increased flows from Tropical Storm Eta. Approximate cost: \$233,366.

This F-Resolution appropriates funding to replenish the Water and Sewer Operating Reserve for Contingency utilized for payment of the costs related to various sanitary sewer collection and transmission system emergency situations since October 2020 and to provide additional appropriation of funding for Sanitary Collections repair and maintenance services operating budget.

Fiscal Note:

Post approval, the Water Sewer Fund 459 General Reserve balance will be approximately \$58 million.

ORDINANCE NO. 4918-20: AN ORDINANCE OF THE CITY COMMISSION OF THE CITY OF WEST PALM BEACH, FLORIDA, AMENDING CHAPTER 94, ZONING AND LAND DEVELOPMENT REGULATIONS AT ARTICLE IV - DOWNTOWN MASTER PLAN, SECTION 94-105 USE REQUIREMENTS AND TABLE IV-2: PERMITTED USE TABLE FOR DMP AND TABLE IV-3: PERMITTED USE TABLE FOR DMP TO MODIFY PERMITTED USES WITHIN THE INDUSTRIAL CHIC DISTRICT AND BRELSFORD PARK DISTRICT; AND SECTION 94-124 INDUSTRIAL CHIC DISTRICT, TABLE IV-28 BUILDING REQUIREMENTS ICD-5 AND TABLE IV-29 BUILDING REQUIREMENTS ICD-2 TO REMOVE DENSITY LIMITATIONS WITHIN THE INDUSTRIAL CHIC DISTRICT; DECLARING THE PROPOSED AMENDMENTS TO BE CONSISTENT WITH ALL OTHER ELEMENTS OF THE COMPREHENSIVE PLAN OF THE CITY; PROVIDING A CONFLICTS CLAUSE, A CODIFICATION CLAUSE AND A SEVERABILITY CLAUSE; PROVIDING AN EFFECTIVE DATE; AND FOR OTHER PURPOSES.

Agenda Cover Memorandum No.: 23171

Staff Recommended Motion:

Approve Public Hearing and First Reading of Ordinance No. 4918-20 based upon the testimony presented, the staff report, the Planning Board and Downtown Action Committee recommendations, and the findings that the proposed amendment complies with the Comprehensive Plan and the amendment standards found in Section 94-32 of the Zoning and Land Development Regulations.

Background:

The Industrial Chic District and Brelsford Park District are an area of downtown that has not seen much redevelopment in comparison to the rest of downtown. In the last few decades, the area has only seen the construction of a storage facility on 7th Street, the renovation of few of the existing houses inside Brelsford Park, and the renovation of some office buildings along the North Dixie corridor. A large portion of the two (2) districts is currently comprised of vacant lots or occupied by non-compatible industrial uses.

In particular, the area along the west side of North Railroad Avenue continues the operation of some industrial uses, such as Palm Beach Cast Stone located at 809 North Railroad Avenue and utilizing several of the lots on the east side of Railroad Avenue for outdoor storage. Other existing buildings are currently vacant. The Danieli Art world gallery occupies the large warehouse at 1009 North Railroad Avenue and Rinker Materials utilizes the property at 1021 North Railroad Avenue as a truck maintenance yard.

On July 14, 2020, Shutts & Bowen, LLC submitted an application on behalf of N. Railroad Commercial, LLC for a code amendment of the Downtown Master Plan requesting a series of changes directed to facilitate the redevelopment of certain properties located within the ICD-5 (west side of North Railroad Avenue). The applicant had acquired several of the existing buildings and intended to renovate them into restaurants, office, a boutique hotel, and possibly retail and residential.

The applicant is proposing two main changes as follows:

1. Permitted Uses Within the ICD-5:

The applicant is requesting a change to the permitted use table to allow retail, office, restaurant and other commercial uses within the ICD-5 sub-district without limitations on size or type.

The current use regulations for the ICD-5 and ICD-2 include a series of restrictions intended to limit the size and type of retail, live/work, office, restaurants, and commercial uses allowed within the district. The district, originally envisioned as an alternative neighborhood with industrial character and less conventional uses, includes a specific provision that limits the type of retail, live/work, office, restaurant and commercial uses, to uses identified as art designer related uses. According to the definition in Section 94-109, art design related uses include architects, landscape architect, artist's studios, graphic designers, interior designers, photographers, culinary arts, flower shops, arts production, dance and music studios, film production, various crafts, fashion designers, merchandising studios, and related studios.

The original intent of the district was to attract art related uses and to promote less conventional uses that may utilize the large open space of old industrial building attractive for their tenants. However, since the adoption of the DMP update in 2007, the district has not seen substantial changes and the existing property owners have reported that they have experienced difficulties in finding tenants that meet the design art related uses definition.

Staff supports the applicant's request, since the existing restrictions seem to be hindering the redevelopment of the district instead of helping it. Staff also supports the removal of the existing restriction that limits the size of restaurants to an occupancy of no more than 75 patrons. For consistency purposes, staff is recommending the same changes to be included for the Industrial Chic District-2.

The applicant's proposal also includes the removal of the existing restriction for storage facilities. Staff does not support the removal of the existing restrictions, which limits storage uses to small businesses and families.

2. Permitted Uses Within the BPD-R:

The applicant is also requesting a change to the permitted use table to allow surface parking lots within the Brelsford Park District – Residential. The applicant is proposing the construction of new surface parking lots on the properties facing Railroad Avenue to serve the renovated structures located on the west side of the street. Over the years, several of the properties located along the east side of Railroad Avenue have been informally converted into outdoor storage and surface parking lots, despite current regulations that do not allow such uses within the BPD-R. All of these lots are associated with industrial uses occupying the existing buildings on the west side of Railroad Avenue. In some cases, hedges have been installed by the property owners to mitigate the negative impact of the outdoor storage.

Despite the fact that surface parking is not a use commonly supported by staff within a residential neighborhood, the particular conditions of the area, and the potential benefits of the renovation of the old industrial buildings along Railroad Avenue into uses more compatible with the residential neighborhood, justifies the change. Several provisions are recommended to mitigate any possible negative impact caused by the surface parking use.

Additional Changes Proposed by City Staff:

In addition to the changes proposed by the applicant, staff is proposing the removal of the existing density limitation for ICD-5 and ICD-2. Currently, Table IV-28: Building requirements ICD-5, includes a maximum density of 40 dwelling units per acre, and Table IV-29: Building requirements ICD-2 includes a maximum density of 20 dwelling units per acre. Similar to the regulations existing within the majority of the downtown core, staff recommends the removal of the density limitations for these two (2) districts to allow more flexibility for the developer to adjust to the market demands on unit size. Despite the removal of the density limitations for both districts, the floor area ratio prescribed for each district is maintained (ICD-5 FAR = 2.75; ICD-2 FAR = 1.0), and the existing requirements for average unit size and minimum unit size are still applicable.

Additional information regarding all proposed changes can be found in the Planning Board report.

COMMUNITY PARTICIPATION: On September 16, 2020, staff facilitated a virtual community participation meeting. During the virtual meeting, the applicant presented to the community the request being presented to the City Commission. Notice for the virtual community meeting was sent via mail to all property owners within the ICD and BPD-R, plus those lying within 500 feet of the two districts, and notice of the public hearings scheduled for the Downtown Action Committee and the Planning Board were also sent to all property owners within the affected area and 500 feet.

NOTICE: A seven (7) day display ad was published in the Palm Beach Post on December 21, 2020. Proof of publication is housed in the Planning and Zoning division records.

DAC: The Downtown Action Committee reviewed and approved (6-0) the proposed amendment during its October 14, 2020 meeting.

PLANNING BOARD: The Planning Board reviewed and approved (7-0) the proposed amendment during its November 17, 2020 meeting.

Commission District 3: Commissioner Christy Fox.

Staff Recommended Motion:

Ordinance No. 4925-20 on first reading and schedule second reading.

Background:

The City is the owner of the property located on Spruce Avenue, PCN No. 74-43-43-16-19-072-0062 (“Property”). On October 19, 2020, via Resolution No. 259-20, the City determined that the Property was not needed for other City purposes, declared the property surplus, and approved sale with the proceeds going to the Housing Trust Fund as the method of disposition of the property.

The City has negotiated the sale of the property to N Railroad Land, LLC., for \$20,000. The proceeds of the sale will be deposited in the City’s Housing Trust Fund for the development or preservation of affordable or workforce housing.

Pursuant to Section 2-31(27)(c) of the Code of Ordinances, a sale or lease of a property, which is assessed by the county property appraiser for less than \$50,000, does not require an appraisal. The current fair market value of the property is \$15,000, as determined through a Buyer Price Opinion provided by Real Estate Asset Disposition Corp., who is a contractor who currently provides real estate services to the City.

Pursuant to Section 2-31(27) of the Code of Ordinances, the sale of surplus property must be approved by Ordinance. As such, City staff seeks approval of Ordinance No. 4925-20 on first reading, authorizing the sale of the Spruce Avenue Property (PCN No. 74-43-43-16-19-072-0062) to N Railroad Land, LLC.
